SUNDAY, JULY 18, 1875.

NEVADA STATE NEWS.

The Eureka and Ruby Hill Narrow Gauge Railroad has been equipped with a locomotive.

The Gila Company has declared its first dividend of twenty-five cents a share. The mine is in a prosperous condition.

Whitehill and Stewart are gathering argentiferous and other specimens from Hamilton to Eureka. In their course of exploration they propose to arrive at Elko in the first days of August. From this point they will probably proceed northward to Cornucopia and Island Mountain.

The hall of Gold Hill Miners' Union will soon be enlarged by the addition of two ante-rooms, twelve by sixteen feet each. As the hall is frequently used for theatrical purposes these apartments will answer for dressing-rooms, as they open directly upon the stage. A two-story building will also be erected on the lot adjoining the hall, and the rents will be a source of considerable revenue to the Union.

The commission of two per cent. charged by the stock brokers of Virginia City is altogether too high. When the charges for telegraphing are added, the tax on a purchase and sale often amounts to five per cent. On a transaction involving less than \$500 it exceeds five per cent., and on all sums above that amount it exceeds four per cent. So says the *Virginia Chronicle*.

Al. Titus, on Wednesday came to the Eureka Sentinel office with an advertisement for a lost check. The notice appeared in the next issue, and before 9 o'clock in the morning, as Al. was going from his house to the Richmond furnace, he noticed a familiar looking slip of paper lying by the side of the road, and on picking it up it proved to be the lost check. With such conclusive evidence, who will hereafter question the benefits of advertising?

The St. Louis *Republican* publishes the official report of John A. Joyce, Revenue agent, relating to his investigations, about one year ago, of the distilleries, rectifying-houses, cigar stores and other establishments of the Pacific Coast from which revenue is derived. The report is addressed to J. W. Douglas, Commissioner of Internal Revenue, and shows the Revenue laws to have been violated by various parties in California, Oregon and other places on the Pacific Coast. It is made public mainly to refute the recent charges by San Francisco papers that, in consequence of the great personal attention paid him while in California, Mr. Joyce failed to find and report irregularities in the whisky business and made a favorable report of his investigations.

"A unimpaired debt currency in unlimited quantities," say the Ohio Democrats. "A sound currency of coin or its equivalent," say the Maine Democrats. "A tariff for revenue," say the Ohio Democrats. "A tariff for revenue only," say the Maine Democrats. And yet the Ohio and Maine Democrats call themselves by the same name, and profess to belong to the same political church.

There is no truth in the rumor that England and Germany are co-operating with the United States in pressing on the Spanish Government the policy of abandoning its West India possessions.

IMPROVED PALACE CARS FOR THE CENTRAL PACIFIC RAILROAD.

It appears that the Central Pacific is doing something elegant in the way of procuring improved drawing-room palace cars. The Dayton (O.) *Journal* has a detailed description of the new cars, which are being built in that city. The general shape of these cars differ but little from the standard Pullman. Their color is a light shade of canary, with light tracings, and scroll work of darker and contrasting shades. The interior is finished in black American walnut, oiled, and most elaborate veneering of French walnut, and decorated with shields of unique marquetry, containing the monogram of the railroad company in ivory on ebony. The silver lamps, with shaded glass globes, highly finished wood, elaborated with silver fixtures, in shape of curtain rods, coat and hat pins, and the embossed French plate glass and mirrors, give almost a dazzling tone to the entire coach. The seats, chairs and sofas are upholstered with the finest grade of Cerise plush. The floor is covered with Brussels carpets, made expressly in colors and design to harmonize with the general finish. The berths are equipped with spring and hair mattresses of the very best quality, linen sheets, pillow cases, etc.; in fact, every necessity and luxury possible to imagine.

The body of the coach contains a smoking room, with an inlaid floor, supplied with a sofa and lounging chairs. The room is entirely disconnected from the main room, yet easy of access by means of a short passage which leads into the sleeping or parlor portion of the car. This room is divided into twelve sections, each section is supplied with four seats, or two berths, two double sash windows, damask shades, and embossed mirrors. Each of these compartments is so arranged that it may be entirely closed from the others, and by the addition of a movable table, converted into a dining room.

Next to the smoking room there is a larger and entirely private state room, supplied with arm chairs and a sofa, together with a ladies' dressing room, complete in each detail. At the opposite end of the car is the general wash room, closet and steam heating arrangements, all finished with corresponding elegance.

We will all have the opportunity to test the comforts of these superb cars when we go to the Centennial next year.

ALASKA.—Elliott, the special agent sent to Alaska some months ago, has submitted his report. From the report it appears that the land is worthless for agriculture; that the fisheries are not extensive and scarcely profitable; that there is no evidence of mineral deposits of any commercial value and that the only considerable industry is that of the animal catch of seals and a few less important fur-bearing animals, and profits of which go to the Alaska Commercial Company.

You that are in need of a good boot or shoe, and a neat fit, go to John Banderlund's shoe store on Virginia street, the only exclusive boot store in Reno. He makes all kinds of gent's boots and shoes to order, and keeps the finest stock of ladies, misses and children's shoes this side of San Francisco. He warrants all his work. You can save money by calling and examining his assortment.

New Goods.—Mrs. McNeely has just received a new and beautiful lot of goods of the latest styles and colors, consisting of ready made suits, dry goods, muslins, prints, white goods of all kinds, table linen, towels, napkins, black silk, hosiery, two-button gloves, gent's kid gloves, also handkerchiefs, ladies handkerchiefs, parasols, Spring shawls, corsets, zephyrs. Millinery and fancy goods of all kinds.

INDICATIONS OF THE GOOD TIME COMING.

Two Things Necessary to Usher It In—What They Are—The Mines All Right.

[From the Enterprise of yesterday.] At last there is a prospect, however remote, of a better state of things in the stock market. It may not be felt very perceptibly immediately, but it bids fair to grow to a healthy state of affairs; and, like all other healthy growths, it commences with lullies. Were we to liken the present dull state of the stock market to a diseased condition of the body, we should say that the cause of disease was removed, and hence the recovery of the patient was only the work of time. We believe this to be the case with the present stock market. Its present dullness has been caused in no small degree by the drain of specie and bullion from the coast. This has, as before stated, been the result of the high premium on gold East. That premium has fallen off somewhat now, and the drain of coin and metal has been checked. Money will begin to accumulate now here at home, and already the stopping of the drain upon the financial system is felt and evidenced by the slight upward tendency of the market.

When the "set back" from the present stoppage of the stream which was draining our financial system shall have reached the people, and those who buy and sell and get gum at the Bay shall show a willingness to open a fair and square market, business will be lively again. The brokers below say they cannot make expenses now fighting each other. The time is not far off when those here will have more than they can do. It is an actual fact that nine out of every ten persons here speculate in stocks when they have the money which they can invest. With the flush times indicated above and the knowledge the people here have of the mines, all that is wanted is confidence in the market, in order that they should put their money into the shares of their favorites. This, from the known merits of the mines, they will be warranted in doing.

All then that is wanting, is that the coin which has been leaving the coast should have a chance to accumulate a little, and circulate among the masses to insure action. Of course, however, this action can manifest itself only through some fitting medium. That medium is the stock market. Let that but respond to the pulsations of the mining heart here on the Comstock, and there will be such an action as has been seldom seen. Already has a show of better things been inaugurated. The south end of the Comstock has been looking up a little along back, and it surprises nobody if what the people have for some time been predicting should prove true, and the next rise be inaugurated in that direction. But the people lack the two requisites yet (the coin and the confidence in the market) for general investments.

There is nothing to be added to what has already been said on the general situation of things at the mines. They are, as a whole, looking magnificently. Drifts are being extended like the roots of trees. As the tree does not reach out after barrenness of soil, but toward that which will yield it nutriment and growth, so these drifts are not, in many instances, seeking country rock, but, with the records of nature plainly written along their line of extension, they also reach for that which shall sooner or later repay the expense of preparation and the toil of search.

ABOVE THE CLOUDS.—Professor Donaldson, says a Chicago dispatch of the 16th, accompanied by Mr. Morswald, of the *Evening Journal*, made a balloon ascension yesterday, leaving this city at 5 o'clock p. m. The balloon took an easterly course across the lake, and was seen by a schooner at 7 o'clock with the basket dipping in the water. As the schooner neared them the balloon again ascended and bore away north. Nothing has been heard from them since, and, as a violent storm passed over the lake about midnight, it is feared nothing but disaster can be recorded.

INTERESTING TO THE LADIES OF RENO AND VALENTY.—The new dress-making establishment opened by the Misses Vance, on Plaza street, opposite the freight depot, will receive and make to order in the latest styles, all kinds of plain and fancy sewing.

NOTICE.—Mr. Nels. Greenman is no longer our authorized agent. Our patrons will govern themselves accordingly. Su Lee & Co.

THE HAY MAKERS.

Hay is at a discount this year upon the Meadows. Everybody has more than he wants. At least, this is what we should suppose from estimates given us by farmers of the vicinity. We are, however, a trifle cynical and feel disposed to question this reckoning just a little. We have before pleased ourselves by giving estimates of the hay crops from the farmers' figures, and have found it necessary to allow fifty per cent. for haste in calculation or some other unexplained cause. The fact is that some people have insectivorous eyes and see many tons of hay where there is but one. Speaking from what we have seen, the crop is fully up to the average, and the total has been totally increased by the addition of much new ground. This shows a healthy tendency in our farming interests and gives stability to other enterprises. There are this year the same number of buyers looking for work and the same difficulties in finding men who can earn their board. Besides these, we have encountered new ones in the "Pilgrims" who bring with them that Eastern, hungry, enervated look and kindly offer to work for from \$75 to \$200 per month. Notwithstanding all this, "hay is made while the sun shines," and "all goes merry as a dinner bell."

Look Out for Sneak Thieves.—There is great complaint here about sneak-thieves, who enter houses when the inmates are away and steal anything they can lay their hands on. If they find the people at home, they make inquiries about the residence of some fictitious person, or frame some other excuse. It would be well for everybody to watch their houses closely, as these wandering marauders may pay them a visit at any time. The above advice from the Chronicle to the people of Virginia City, is equally applicable to the citizens of Reno.

Our New Platform.—There has recently been constructed in Reno a new platform which, if we mistake not, is far in advance of either the Republican, Democrat or Independent. It is built on firmer principles and surer ground than any of the foregoing, and it is a platform which we may all stand on irrespective of party. It is no bubble, to be thrown over and forgotten in a short time; and therefore we commend it to the citizens of Reno. We refer to the new platform which has just been finished in front of the Masons Hall, which sets that building off to a T.

EMIGRANTS.—Six car loads of emigrants passed here last evening going West. Some of them complained about the hard times in the Western States; the low price of labor and all that, but when offered \$40 per month to work on ranches in this vicinity, not one of them would accept it. It was the old story with them, they had paid for a ride to San Francisco, and were going through or burst in the attempt.

DENIED.—In the District Court yesterday Judge Wright denied the motion for a new trial in the case of the C. P. vs. Washoe county for delinquent taxes of 1874. We know not what will be the next move of the railroad company to stave off payment. But we are sure to receive the \$30,000 sometime.

A Policy of Life Insurance issued by the Alliance Mutual, and duly registered by the State of Kansas, and bearing the seal of that State, is as secure as a Government bond.—*Barnes, New York Insurance Report.**

PERSONAL.—We noticed Abe Edgington and Charlie Van Gordon in town yesterday. They were the guests of W. R. Chamberlain. We are sorry that Abe looks so poorly, and hope he will be better soon.

WIRE NOT GRANTED.—Judge Wright yesterday, in the District Court, denied the application of Attorney Boardman for a writ of habeas corpus in the case of the two Chinamen accused of kidnaping.

ONE of the "annual" tramps walked into one of our banking establishments yesterday and wanted a \$100 gold note, as he said the silver he was carrying was too heavy to pack. Nary another cent do we put up for these vagrants this season.

PAT.—Overland Pat won the race yesterday in two straight heats, beating Sorrel Bill and Bundle-and-Go. Time—first heat, 51 1/2. The time in the second heat was not taken.

LIVELY.—Commercial Row and Virginia street presented an unusually lively appearance last evening. We have not seen so many people on those streets in a long time.

TEA TRAIN.—The China steamer has arrived in San Francisco. We know it to be a fact; for a tea train of nine cars passed east over the Central Pacific last evening.

FIGHT.—A slight scrimmage took place yesterday noon opposite the Depot Hotel. The combatants didn't hurt each other as much as they ought to.

REV. W. J. CLARK will preach at the Congregational Church, at eleven o'clock this morning, and in the evening at 7 o'clock. All are invited.

DIVINE services will be held in the M. E. Church to-day, at 11 A. M. and at 8 P. M., also Sabbath school at 10 P. M. Rev. E. C. Arnold, Pastor.

Quite a number of Renoites "on" the dance, went out to Brown's last evening, to participate in the social dance at that place.

DELINQUENTS in the Consolidated you have still another week in which to pay up. See list in another column.

STOCKER quotations received at 8 o'clock last evening show stocks a shade off. Yet the market looks healthy.

At a meeting of the miners in and around
Washoe City, held on the 15th day of June, 1875,
William Gregory was called to the Chair, and
P. D. Tenner, was appointed Secretary. In con-
sequence of the fact of the Mining Recorder
having permanently removed to the records of the
Argentine Mining District from said District, it
was unanimously resolved that the office of Mining
Recorder for said District be declared vacant,
the District be abolished and laws thereof be
abolished. It was further resolved that a new
Mining District be created under the title and
name of Washoe Mining District, Washoe county,
State of Nevada. The Act of Congress, entitled
"An Act to promote the development of the
mining resources of the United States, approved
May 10, 1872," was adopted as a code of laws
governing the miners and the records of the
Washoe county were selected. Mining Recorder of
said District. It was further resolved that the
proceedings of the meeting be published in the
Nevada State Journal, a newspaper published
in the town of Reno, Washoe county, Nevada,
for the period of one month. On motion the
meeting adjourned.
